SIMM DOUBLER
AUTOTIME CORPORATION
INNOVATORS IN MEMORY RECYCLING
Patent Pending
Flipping board orients LEFT or RIGHT
Read your system manual to identify valid memory configurations.
Remember some 486 systems will not support double banked SIMMs.
SIMM Doubler combines 2 single Banked SIMMs into a double banked SIMM
8MG-32MG Single banked SIMMs are 1-4-16 meg in size.
Double banked SIMMs are 2-8-32 meg in size.
PD jumper configuration can be ignored due to
industry wide inconsistancy of the standard
